I am interested in a QA Engineer – Intern role where I can contribute my analytical skills and knowledge acquired by pursuing my degree in Software Engineering looking for a dynamic and progressive company where I can utilize my skills in the maximum way possible. In addition, I have experience in problem-solving and error solving. Love to write code with background music.

## Skills

- Knowledge about Object Oriented Programming.
- Knowledge about HTML, CSS and basic JS.
- Deployment using GitHub and GitHub Actions.
- Writing clean production level codes.
- Designing system with UML and Draw.io.
- Databases like Oracle SQL or MySQL
